### **Representative Kerkman on President Trump's visit to Kenosha**

(Madison) – On Tuesday, April 18, President Donald Trump visited the headquarters of Snap-On Tools in Kenosha marking Donald Trump's first visit to Wisconsin since being sworn into office. The event was part of President Trump's "Buy American, Hire American" campaign as he signed an Executive Order directing certain departments of the Federal Government to create new rules to rein in immigration fraud and abuse and award H-1B visas to skilled applicants.

State Representative Samantha Kerkman (R-Salem Lakes) said following the event,

"Any time the President comes to town, regardless of political identity, it is a big deal. I think that a reason Kenosha County voted Republican in 2016 for the first time since 1972 was because of his promise of keeping jobs and bringing back lost jobs to the United States. Over the last 3 years there have been numerous companies announcing a move to Kenosha County, bringing nearly 8,400 jobs back to the area. The Executive Order that President Trump signed today will hopefully only add to that number."
